

Quirks in Quark Flavour Physics 2024

Wednesday 19 June 2024

Day 2: Morning 1 (09:00 - 10:30)

-Conveners: Thomas Mannel

time	[id] title	presenter
09:00	[11] $B_c \rightarrow \eta_c$ form factors at large recoil: interplay of soft-quark and soft-gluon double logarithms	HORSTMANN, Dennis
09:30	[17] Exploring semileptonic $B_s \rightarrow D_s^{*\pm}$ decays	BOUSHMELEV, Anastasia
10:00	[19] CP-odd observables in $B \rightarrow P \ell \ell$	Dr KOŠNIK, Nejc

Day 2: Morning 2 (11:30 - 12:30)

-Conveners: Ulrich Nierste

time	[id] title	presenter
11:30	[3] Scalar leptoquarks in flavour physics	FAJFER, Svjetlana

Day 2: Afternoon 1 (15:00 - 16:00)

-Conveners: Ilija Milutin

time	[id] title	presenter
15:00	[23] "Are there quirks in the $D \rightarrow \rho \ell \ell^+ \ell \ell^-$ decays?"	KHODJAMIRIAN, Alexander
15:30	[27] Nonperturbative QCD in D_0 - D_0^* mixing	DULIBIĆ, Lovro

Day 2: Afternoon 2 (17:00 - 18:30)

-Conveners: Martin Novoa-Brunet

time	[id] title	presenter
17:00	[26] Semileptonic charm decays in the Weak Effective Theory	BOLOGNANI, Carolina
17:30	[24] Constraining the level of direct CP violation in charm-meson two-body decays	SOLOMONIDI, Eleftheria
18:00	[5] On the potential of Light-Cone Sum Rules without Quark-Hadron Duality	CARVUNIS, Alexandre
