

Farewell from *More than a lifetime*

more than a lifetime 22. – 25.9.2025
Siegen, Germany

Organising Committee
Johannes Albrecht
LHCb, Dortmund
Florian Bernlochner
Belle II, Bonn
Achim Geiser
CMS, DESY
Robert Harlander
Theory, Aachen
Alexander Lenz
Chair, Theory, Siegen
Ulrich Nierste
Theory, Karlsruhe
Maria Smizanska
ATLAS, Lancaster
Guy Wilkinson
LHCb and BES III, Oxford
Oliver Witzel
Theory, Siegen

International workshop
Lifetimes of heavy hadrons
– experimental and theoretical aspects

<https://indico.physik.uni-siegen.de/event/498/>

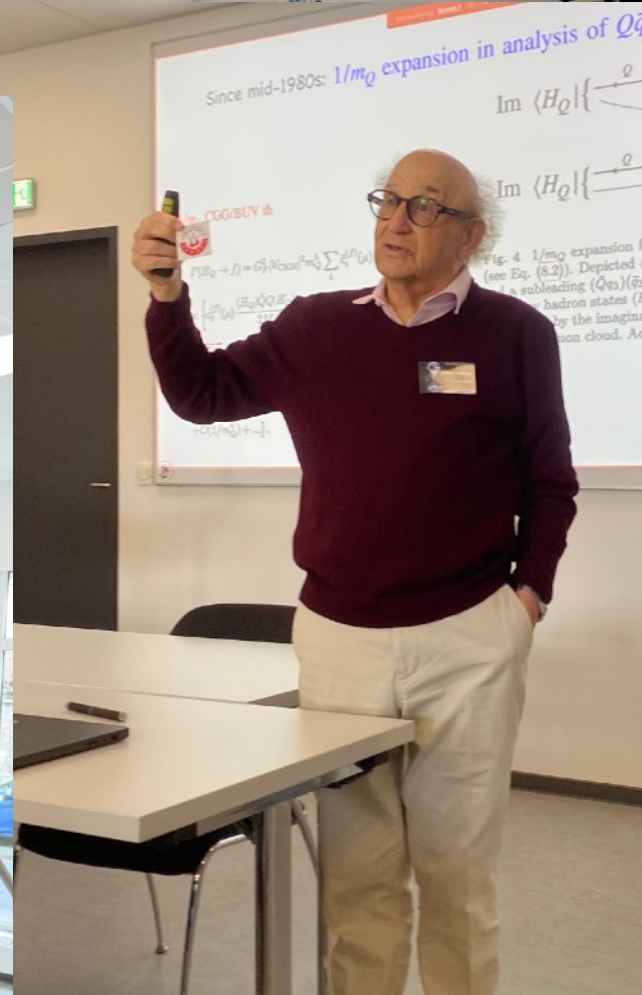

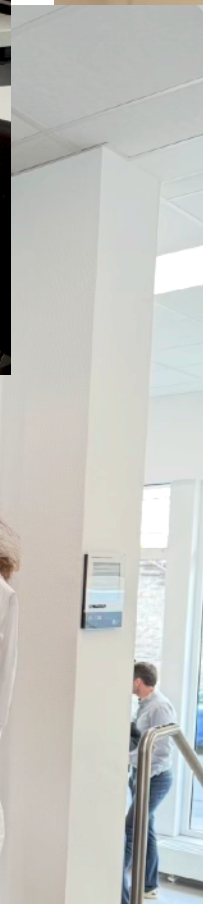

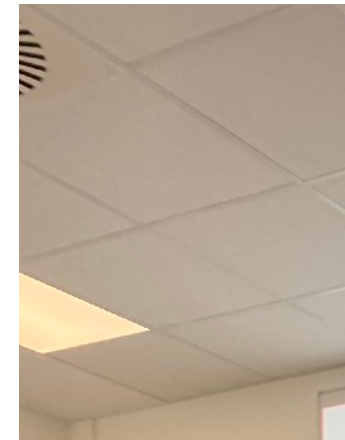

Farewell from *More than a lifetime*

Farewell from *More than a lifetime*

Thanks for the science

Farewell from *More than a lifetime*

Thanks for all the
hard work!

Farewell from *More than a lifetime*

Thanks for the fun

Farewell from *More than a lifetime*

Homework assignment

Farewell from *More than a lifetime*

Homework assignment

Experimentalists:

Finish the list of Achim

Farewell from *More than a lifetime*

Homework assignment

Experimentalists:

Finish the list of Achim

Theorists:

Calculate everything one order higher

Farewell from *More than a lifetime*

Homework assignment

Experimentalists:

Finish the list of Achim

Theorists:

Calculate everything one order higher

Do everything also on the lattice

Farewell from *More than a lifetime*

Homework assignment

Experimentalists:

Finish the list of Achim

Theorists:

Calculate everything one order higher

Do everything also on the lattice

Express the HQE for charm as

$$m_c = m_b - (m_b - m_c) = m_b(m_{b,kin} - (M_{B_d} - M_{D^0}) + \dots)$$

Farewell from *More than a lifetime*

Homework assignment

Experimentalists:

Finish the list of Achim

Theorists:

Calculate everything one order higher

Do everything also on the lattice

Express the HQE for charm as

$$m_c = m_b - (m_b - m_c) = m_b(m_{b,kin} - (M_{B_d} - M_{D^0}) + \dots)$$

As soon as all homework are handed in

We will organise the next edition - including 4 drinks for the dinner and Wisent-steaks

Have a safe trip!
